# The SilverOpus Group Experience: Reimagined for Excellence & Authenticity

## Tribal Travel

First and foremost, we build experiences for sophisticated, curious and adventurous travelers ages 50 plus. That is our tribe. We have a solid understanding of what our tribe wants, how they expect to discover the world, so we build adventures around that knowledge.

## Group Size & Tour Directors

Each of our departures is restricted to a maximum of 14 travelers, which guarantees a meaningful and intimate experience for all. Why such small groups? Because they are perfect for camaraderie to flourish. Laugh, exchange ideas, discover, talk, learn. Together. You are among friends. Old and new.

Leading each departure, you will always find someone who does two things very well: 1) they are masters at sharing their knowledge and passion for the destination. Great storytellers. 2) They have the gift of taking care of people, ensuring that they feel comfortable, happy, and safe. Caring leaders.

We are fully aware that at the heart of every outstanding travel experience is a great Tour Director, so we invest heavily in the people we hire to lead our programs. Our tribe deserves them!

## Local Tour Guides

In every village, town, and city visited in our programs live a few unique guys and gals who really, really, really love that town. They love it so much that they could talk about it all day long. They are entertaining, warm, and immensely proud of the culture, history, food, and people they represent. Those are the guys and gals we pick for our local tours and excursions. Excellent people. Beautiful people whose words and passion become souvenirs that our travelers carry with them for the rest of their lives.

## Itinerary Design

There are a few cornerstones present in every program we design. Nothing is by accident. Balance is paramount. A strong itinerary covers some of the destinations' famous attractions, but, most importantly, it must give you the opportunity to be with the locals. Walk the streets and see the houses, and understand how people live there. Reflect. The final touch in the recipe is some open time, so you can roam around a bit and find your own favorite corners. Favorite memories, after all, are personal.

## Hotels, Activities, Transportation & Meals

Hotels are more than just places to stay—they're key to your journey. Each property is chosen to ensure you feel like a guest of honor through ambiance, comfort, and exceptional service. Authenticity matters. All our group programs include daily breakfast and several meals, letting you savor fresh, local dishes prepared with traditional care. We balance luxury vehicles with local transport—trains, boats, and flights—to optimize comfort and sightseeing time. You'll spend your days exploring, not stuck in transit. Sustainability is at the heart of our choices, and we respect each destination we visit. To fully immerse yourself, every experience engages your senses. Each day unfolds differently, tailored to your fitness level, ensuring participation and personalization throughout your journey.

## Absolute, 24/7 Support

Airplanes are the safest way to travel because of their redundant safety systems. We shamelessly copied that idea in what we do (why not?). If you need anything while traveling, your Tour Director is right there to assist you. Moreover, we have a network of suppliers at each destination, ready to work for you. And over here, in the USA, we have a team of highly-qualified professionals at your disposal before, during and after your travels. No question goes unanswered and no request is ignored. We do what it takes to give you absolute support.

## The Final Quality Test

Before any new program is made available to our tribe, it must be approved by the founder and owner of SilverOpus: a tough-to-please engineer with sky-high expectations. Our tour designers, all of the highest caliber, know that they will be faced with one question: “Would you take your spouse/family/friends on this adventure?” If the answer is not a ground-shaking “yes!!”, then the program returns to the drawing board, immediately.
